# Thiago Fassina

Senior Software Engineer | Technical Product Manager

mobile **+55 27 99297 2599**
email **fassinatg@gmail.com**
website **thiago.fassina.info**
nationality **Brazilian**

## EXPERIENCE

### Independent Product Engineer
MAR'24 — present

Designed and delivered end-to-end software products, from business requirements and architecture to implementation and production. Projects include SaaS business systems, IoT access control, and a custom e-commerce platform.

### **AE Studio,** Venice, CA — *Technical Product Manager*
FEB'22 — NOV '24

Led technical delivery across multiple client projects, serving as the primary bridge between stakeholders and engineering teams. Owned project planning, requirements, milestones, and client communication while contributing hands-on to software development.

### **Além,** São Paulo, SP — *Product Owner*
MAY '21 — DEC '21

Established agile delivery processes, managed product roadmaps, and translated business goals into actionable engineering priorities. Introduced quality assurance practices and product metrics.

### **absence.io,** Munich, BA — *Back-end Engineer*
OCT '17 — JAN '21

Designed and developed core HR SaaS functionality, including a rules-based leave entitlement engine. Contributed to backend architecture, product design, and frontend development.

### **WizeHive,** Conshohocken, PA — *Full-stack Engineer*
APR '14 — AUG '17

Owned maintenance and evolution of a production SaaS platform, including backend development, infrastructure, and deployments. Built integrations and extensions for a new modular application platform.

## EARLIER EXPERIENCE

MAR '12 — AUG '13 **Conceptho**, Vitória, ES — *Software Engineer*
JUN '10 — MAR '12 **iMasters**, São Paulo, SP — *Software Engineer*
MAR '08 — NOV '08 **NPD-UFES**, Vitória, ES — *Software Engineer Intern*

## EDUCATION

### UFES - Universidade Federal do Espírito Santo
MAR '12

Bachelors in Computer Science

## CORE EXPERTISE

Agile development

Web stack

SQL & NoSQL databases

Automated testing

User experience

Blockchain & EVM

AI & Prompt Engineering

## TOOLS

**Front-end frameworks**
such as React.js, Angular.js

**Web development stacks**
Next.js, Node+Express, AMPP

**Process management**
such as Linear, Jira or Notion

**Design tools**
such as Figma, Inkscape, pencil & paper

**Programming languages**
Javascript, Typescript, C/C++

## LANGUAGES

**Portuguese** – native

**English** – fluent speaker

**German** – beginner
